

Prehospital Emergency Services
Current Awareness Update
Issue 74, Aug 2019

The aim of this Current Awareness Update is to provide a digest of information supporting evidence based practice in prehospital emergency services.

This is an edited version of
the update for SWASFT staff

You will need a **SWASFT Athens account** to access resources

Prehospital Emergency Services Current Awareness Update – Issue 74, Aug 2019

With thanks to Matt Holland, LKS ASE Librarian (on behalf of the National Ambulance Research Steering Group).
This Current Awareness Update was commissioned by the National Ambulance Research Steering Group comprising of research leads from ambulance trusts in England, Scotland and Wales and other experts and groups supporting prehospital research. The aim of the group is to support the strategic development of ambulance and prehospital research whether leading, collaborating in or using research.

The research papers have been arranged by the topic headings below:

[Prehospital Practitioners – Professional Development](#)

[Prehospital Research – Methods and Discussion](#)

[Diagnosis & Triage](#)

[Patient Profile](#)

[Helicopter Emergency Medical Services](#)

[On-Scene Interventions](#)

[Airway Management, Resuscitation & CPR](#)

[New ebooks and other resources](#)

Visit <http://discoverylibrary.org/swasft>
to see all the information resources available to you including:

- ebooks
- databases
- journals
- point of care tools
- apps

New Ebooks and other resources

- **Damage control resuscitation: identification and treatment of life-threatening hemorrhage.**
- **Fundamentals of paramedic practice: a systems approach.**
- **Interprofessional simulation in health care: materiality, embodiment, interaction.**
- **Medical statistics from scratch: an introduction for health professionals.**
- **Rapid medicines management for healthcare professionals.**
- **The textbook of non-medical prescribing.**

SWASFT Athens account required (register [here](#))

**amber – the home of ambulance service
research**

Release of a beta version of amber, an online database of research published by NHS staff and researchers working in ambulance services in England.

Visit the amber project website at ambulance.libguides.com/amber

Search amber at amber.openrepository.com amber is free to use and does not require a user name or password.

amber has reached an important mile stone in its implementation and now contains all research from 2017 to date. Work is continuing on updating amber and will be completed by May 2020. LKS ASE will be demonstrating amber at the Emergency Services Show in Birmingham on the 18th to 19th September 2019.
