

SEARCHING NHS LIBRARY RESOURCES

What can your library do for you?

Training options

available to book for bespoke sessions

All can be arranged face to face in the Discovery Library, over MS teams, or for the group option a team member can visit your department if you have a suitable space.

Assisted search

Book a personal session for a supported subject search to find articles and resources on a specific topic.

If you have colleagues who would benefit from the same training we can arrange a group session using relevant topics.

Department / team

Regular sessions

Times for upcoming sessions are given below, but if these aren't suitable contact us with dates and times that would be convenient for you.

Regular Searching NHS Library Resources sessions

An overview of the clinical evidence resources available to you and your teams through the library, and how to access and search them effectively.

Informal small group session run on Microsoft Teams for 1 hour.
